

# AIM Demystifying Dyslexia Module

*Developed by the AIM Institute for Learning & Research*

The Maryland State Department of Education is excited to offer professional learning to all public school Maryland educators at **no cost**.\*

**Demystifying Dyslexia** is an in-depth learning module about dyslexia, a common learning disability that affects 5-20% of the population. The curated content, includes a simulated dyslexia experience and printable classroom tools, explains the origin of dyslexia, the key characteristics of the disability, and the necessary elements to support these individuals through interactive and multi-media learning experiences.

**This course is available for a limited time and only 1,000 participants will have access to the course.**
